Summary

Software Engineer skilled in full-stack web development, DSA in Java. Experienced in building responsive applications using React.js, Node.js, Express.js, MongoDB, and REST APIs, with strong problem-solving and software development fundamentals.

Skills

Programming Languages: Java, JavaScript.
Problem Solving: DSA in Java, LeetCode (300+ Problems Solved).
Frontend: HTML5, CSS3, JavaScript, React.js.
Backend: Node.js, Express.js, REST APIs, API Integration, Authentication, CRUD Operations.
Databases: MongoDB, SQL, Database Design.
Core Concepts: OOP, DBMS, Operating Systems, Computer Networks.
Tools & Technologies: Git, GitHub, VS Code, Postman, Firebase, AI Fundamentals.

Projects

ClassMark - Classroom Management Application (link) | *React Native, JavaScript, Firebase, MySQL* **Jan 2026 – Feb 2026**

- Developed a classroom management application to streamline academic administration for students and teachers.
- Implemented modules for attendance tracking, assignment management, student records, and performance monitoring using role-based access control.
- Integrated Firebase authentication and database functionalities to manage real-time academic data securely and efficiently.
- Designed responsive and user-friendly interfaces using React Native to improve accessibility and classroom workflow management.
- Applied CRUD operations, database management concepts, and server-side validation to ensure accurate and secure data handling.

IRCTC Website Redesign (link) | *React, JavaScript, CSS, API Integration* **Apr 2025 – May 2025**

- Redesigned the IRCTC booking interface with a modern, responsive UI to improve usability across desktop and mobile screen.
- Integrated APIs to display dynamic train-related information such as seat availability and booking status.
- Improved page performance and structured the interface for better readability, navigation, and user experience.
- Applied frontend best practices using reusable components, clean code structure, and accessibility-friendly design.

Achievements & Certifications

- **Hackathon Winner – INNOVERTEX (2025):** Secured 1st position for developing a full-stack application with real-time functionality and modern UI design. Link
- **7x National Hackathon Finalist:** Qualified as a finalist in multiple national-level hackathons by developing innovative software solutions and presenting technical ideas effectively.
- **Best Speaker Award:** Recognized for outstanding presentation, communication, and technical explanation skills during academic and hackathon events.
- **Decode Java+DSA 1.0 – Physics Wallah (2026):** Successfully completed the Java and Data Structures & Algorithms program, strengthening problem-solving and algorithmic skills. Link
- **Delta – Full Stack Web Development – Apna College:** Successfully completed the Delta Full Stack Web Development course covering modern web development technologies and full-stack application development. Link

Education

I.K. Gujral Punjab Technical University (IKGPTU) **2023 – 2027**
Bachelor of Technology (B.Tech) in Computer Science and Engineering *Current CGPA: 7.50 / 10*
